Skills

- Proficient in C#, ASP.NET, WinForms, Object Oriented Design, Visual Studio 2012/2017, Team Foundation Server, SQL Server Management Studio 2014/2017, SCRUM Agile Framework, and Google.
- Moderate knowledge in T-SQL, Waterfall Methodology, MVC, Entity Framework, HTML, CSS3, and Postman.
- Enjoys learning new things, failing, failing again, and eventually succeeding.

Experience

January 2019 - April 2019

University of Chicago – Biological Sciences Division Information Services, Chicago, IL – *Contract Software Developer*

- Implemented Active Directory account creation, email sending, and new user creation, for BSDIS Forms, an internal web service used in BSDIS. Created a new MVC web internal service, Profiles Admin, used to manage faculty, staff information and proxy access using basic CRUD operations with Entity Framework.
- Used C#, ASP.NET 4.6.1, MVC 5.4.2, Entity Framework 6.2, Razor 3.2.4, HTML, CSS3, Active Directory, Visual Studio 2017, SQL Server Management Studio 2017, and Team Foundation Server.

January 2016 - September 2018

Navitaire, Salt Lake City, UT – *Software Developer Intern & Senior Software Developer Analyst*

- Worked in 4 week sprints to help develop new features for Loyalty, a rewards system for low cost airlines, as well as maintained our system over the course of 10 releases.
- Helped maintain our databases, as well as create new tables and stored procedures using SQL and SQL Server Management Studio.
- Spearheaded our transition to a Swagger based version of our Loyalty web client.
- Worked as the main developer in the U.S. as well as with a development and QA team in Manila.
- Used C#, ASP.NET WinForms, Visual Studio 2012/2017, SQL Server Management Studio, T-SQL, Swagger, Postman, SCRUM Agile Framework, and Team Foundation Server.

February 2015 - April 2015

AmericanEagle.com, Salt Lake City, UT – *Web Application Developer*

- Worked on the Sitecore Retainer Team maintaining client websites for various companies based out of Chicago.
- Used ASP.NET Web Forms, Sitecore 7, Team Foundation Server, HTML and CSS.

September 2014 - December 2014

1-800 Contacts, Draper, UT – *Software Development Intern*

- Worked on a team of 5 on rebuilding an in house application used to order lunch at both company sites.
- Helped with design as well as used UML diagrams to execute our concepts.
- Used C#,MVC 4.0, Javascript, HTML, CSS3, SQL, Microsoft Sql Server Management Studio, and Team Foundation Server.

Education

December 2016

Neumont College of Computer Science, Salt Lake City, UT – *Bachelor of Computer Science*
